

Participation

Great participation from everyone can really make a field course a wonderful experience. By participation, we are looking for students to be prepared for the conditions, engaged, asking questions, showing up on time, participating in discussions, sharing observations and ideas, and helping others. Field work in the winter is challenging – some days will be difficult. Expect the challenge and bring your enthusiasm!!

Participation Rubric (10% of final mark; marked /10)

Major Presentation Questions. Did you ask at least two good questions of others during the major presentations? (2%)

Natural History Presentation Questions. Did you ask at least two good questions of others during the natural history presentations? (2%)

Discussions. Did you participate in class discussions (e.g., paper discussions, discussions of projects, etc.)? (2%)

Preparedness. Did you show up prepared for the conditions? Did you show up on time for all events? (2%)

Enthusiasm & Teamwork. Did you bring your enthusiasm to the field, despite the challenging conditions? Did you work well with others? Did you help other students? (2%)
